DRAWING FOR BEGINNERS & INTERMEDIATE

With Gilda Wilson

Monday &
Thursday morning class

Whether you want to paint or draw, my classes are small and intimate so each student can have my full attention. Through still life set up in the studio, students learn how to transpose a three dimensional image they have in front of them onto a flat support by learning about tone, proportions, ellipses and perspective.

I acquired my drawing and painting knowledge at Tafe and University, and I understand what a beginner student needs to learn in order to develop their skills and their own mark making. I am a still life artist who enjoys equally drawing and painting.
