PAINTING AND DRAWING

With Anne-France Fulgence
Thursday all day
9.30 – 3.30pm

Southerly Change

My art practice centers on capturing the wildness of nature through paint, with subject matter that alternates between weather-beaten Australian landscapes and gritty portraits of hunting dogs. Through bold and dramatic compositions, my works evoke a sense of romanticism, charging each painting with power and emotion. I am fascinated by the changing climate, and the beauty of destructive events. I use many mediums, I like the challenge of experimenting, and risk taking.
