

Expressive Drawing & Painting Bootcamp

With Jody Graham

28th Feb & 1 Mar 2026

9:30am – 3:30pm

\$300BDAS Members \$350 non-members

Workshop Theme: Expressive techniques in mixed media drawing and painting, with Australian birdlife as the muse.

Birds have long captured the human imagination, as symbols, messengers, and everyday wonders. This two-day expressive drawing and painting workshop invites participants to explore birds as both subject and inspiration, using a dynamic combination of innovative drawing, painting, and mixed media techniques.

Designed for those looking to expand their creative process, this workshop introduces an **original layered approach** to building texture, depth, and patina into artwork. The extended two-day format allows time for detailed demonstration and instruction, experimentation, and refinement.

What to Expect:

Participants will be guided through:

- Exercises on how to be more expressive and connect with materials
- Techniques for layering and building textured surfaces
- The creation of several finished mixed media artworks
- Opportunities for feedback and encouragement to develop a more personal artistic voice

While this workshop is ideally suited to those who have participated in previous Expressive Drawing workshops - **Bootcamp 1**, however, it remains **open to all skill levels**, from curious beginners to experienced artists. It offers a supportive environment to experiment, take creative risks, and produce artwork that is bold, expressive, full of texture and life.

*No bird expertise required—just a willingness to explore and create.

**To Book: 4861 4093 or
office@bdasgallery.com**

Located at 1 Short Street, Bowral
