

BDAS

DRAWING FOR BEGINNERS & INTERMEDIATE PAINTING, THE FIRST STEPS & BEYOND

With Gilda Wilson

Thursday morning & Friday afternoon

The drawing and painting courses will give you the skills to approach any subject you want to depict. Regardless of the medium you choose, you will be taught the importance of tone, perspective, proportion and negative space. In both courses, participants will learn how to work out composition by using a view finder and thumbnail sketches. Gilda's small classes will enable you to learn and develop your skills at your own pace under her personal guidance. Art history and contemporary artists are also discussed during the classes.

Gilda was born in France and lives in the Southern Highlands. She is a practising artist and has been teaching at BDAS since 2019. Gilda first started to teach art in South Korea while being part of an artist Collective. This experience was fulfilling as she enjoyed sharing the knowledge she had acquired from generous tutors encountered throughout the years, hence her desire to continue teaching once back in Australia
